

New Product! New Product! New Product! New Product!

Available **July 1, 2000** from NOAA
Office of Aeronautical Charting and Cartography

National Imagery and Mapping Agency's ARC Digitized Raster Graphics (ADRG)

The ADRG is an image format developed by the National Imagery and Mapping Agency (NIMA) for use with available commercial applications to provide a raster background display of a scanned map image.

Most of the following NIMA Aeronautical Chart Products are available in ADRG format on CD-ROMS:

- **Tactical Pilotage Charts (TPC)**
- **Operational Navigation Charts (ONC)**
- **Global Navigation and Planning Charts (GNC)**
- **Jet Navigation Charts (JNC)**

- ❖ ADRGs are sold as one-time sales.
- ❖ One chart is provided on each CD-ROM.
- ❖ Price per CD-ROM is \$12.00

ADRG documentation can be downloaded from the NIMA website at:

http://164.214.2.59/publications/specs/printed/89007/89007_ADRG.pdf

To order ADRGs: Provide the product name, stock number, the current price and number of copies on a separate sheet of paper or an order form. Adding a "D" to the beginning of the paper chart stock number indicates that an ADRG CD-ROM is desired rather than a paper chart. For example, to order ***Tactical Pilotage Chart E-3-A*** in ADRG format, the stock number is **DTPCE3A**. Please include room or apartment number on your delivery address, and a daytime phone number should questions arise concerning your order. **Payment must be included with your order.** Remittance must be in U.S. funds: by check payable to NOAA, on a U.S. bank, by international money order, or by providing VISA, MasterCard or Discovery Card account information. You may also place your order by calling (800) 638-8972 or (301) 436-8301. All sales are final unless an error is made by this office in filling the order.

Send mail orders and payment to: **NOAA Distribution Division, N/ACC3
